and the occupier of the warehouse is guilty of an offence and is liable on summary conviction to a fine of \$20 000.

(2) Where the goods have been lawfully removed from a warehouse for transport to another warehouse or to some other place, and no duty has been paid in respect of them, and the goods fail to reach that other warehouse or place then notwithstanding any other fine or liability to forfeiture incurred under this Act, the transporter of the goods shall pay the Comptroller

- (a) the duty that the goods would have borne if they had been entered for domestic use on the date of their removal from the warehouse; or
- (b) in the case of goods not eligible for domestic use, an amount that is, in the opinion of the Comptroller, the value of the goods,

(5) Where, within 2 years, warehoused goods have deteriorated or have been changed to such a degree that the Comptroller is satisfied that they have become worthless, the Comptroller may allow abatement of the duty chargeable on them as, in his opinion, the amount of the deterioration or damage bears to the original value of the goods.

FIFTH SCHEDULE*(Sections 138 and 307)**Value of Imported Goods***Interpretation****1.(1)** In this *Schedule*,

- (a) “customs value of imported goods” means the value of goods for the purposes of levying *ad valorem* duties of customs on imported goods;
- (b) “goods of the same class or kind” means goods imported from the same country as the goods being valued and goods which fall within a group or range of goods produced by a particular industry or industry sector, and includes identical or similar goods;
- (c) “identical goods” means goods produced in the same country as the goods being valued which are the same in all respects, including physical characteristics, quality and reputation;
- (d) “identical goods” and “similar goods” do not include goods which incorporate or reflect engineering, development, artwork, design work, and plans and sketches for which no adjustment has been made under paragraph 8(1)(b)(iv) because such elements were undertaken in Barbados;
- (e) “person” means a natural or legal person;
- (f) “produced” includes grown, manufactured and mined;
- (g) “similar goods” means goods produced in the same country as goods being valued which, although not alike in all respects, have like characteristics and like component materials which enable them to perform the same functions and to be commercially interchangeable.

- (2) For the purposes of
- (a) sub-paragraph (1)(c), minor differences in appearance shall not preclude goods otherwise conforming to the definition from being regarded as identical; and
 - (b) sub-paragraph (1)(g), the quality of goods, their reputation and the existence of a trade mark are among the factors to be considered in determining whether goods are similar.
- (3) For the purposes of this *Schedule*
- (a) persons shall be deemed to be related in business if
 - (i) they are officers or directors of one another's businesses;
 - (ii) they are legally recognised partners in business;
 - (iii) they are employer and employee within the same business entity;
 - (iv) any person directly or indirectly owns, controls or holds 5% or more of the outstanding voting stock or shares of both persons;
 - (v) one of them directly or indirectly controls the other person;

 - (vii) together they directly or indirectly control a third person or any other person;
 - (viii) they are members of the same family;
 - (b) one person shall be deemed to control another when the former is legally or operationally in a position to exercise restraint or direction over the latter;
 - (c) persons who are associated in business with one another in that one is the sole agent, sole distributor or sole concessionaire, however

described, of the other shall be treated as related only if they fall within the criteria of sub-paragraph 3(a);

- (d) an event shall be deemed to occur at or about the same time as another event if the first event occurs
 - (i) on the same day as the other event; or
 - (ii) within the 45 days immediately before, or the 45 days immediately after the day on which the other event occurs.

Customs value

2.(1) Subject to sub-paragraph (2) and sub-paragraph (5), the customs value of imported goods shall be determined in accordance with the provisions of paragraph 3.

(2) Notwithstanding paragraph 3(1), but subject to paragraph 3, where the conditions described in paragraph 3(1) do not exist, the customs value of imported goods shall be determined in accordance with paragraphs 4, 5, 6 and 7, applying each paragraph in a sequential manner as is necessary.

(3) Except as provided for in sub-paragraph (2), and sub-paragraph (4) it is only when the customs value of imported goods cannot be determined under a particular paragraph that the provisions of the next paragraph in the sequence established by sub-paragraph (2) can be applied.

(4) The Comptroller may, at the request of an importer, reverse the order of the application of paragraphs 6 and 7.

(5) Where the customs value of imported goods cannot be determined in accordance with paragraphs 3 to 7, it shall be determined using any reasonable means consistent with the principles and general provisions of this *Schedule* and taking into account to the greatest extent possible previously determined customs values, making use of the methods of valuation laid down in paragraphs 3 to 7

inclusive, using where necessary reasonable flexibility in their application, but no consideration shall be given to

- (a) the selling price in Barbados of goods produced in Barbados;
- (b) the price of the goods on the domestic market of the country of exportation;
- (c) the cost of production other than computed values which have been determined for identical or similar goods in accordance with paragraph 7;
- (d) the price of the goods for export to a country other than Barbados;
- (e) a system which provides for the acceptance for custom purposes, of the higher of two alternative values;
- (f) minimum customs values; or
- (g) arbitrary or fictitious values.

Conditions for customs value

3.(1) The customs value of imported goods determined under this paragraph shall be the transaction value, that is, the price actually paid or payable for the goods when sold for export to Barbados, adjusted in accordance with paragraph 8, and in appropriate cases paragraph 9, provided that

- (a) there are no restrictions as to the disposition or use of the goods by the buyer, other than restrictions that
 - (i) are imposed by law or by the public authorities in Barbados;
 - (ii) limit the geographical area in which the goods may be resold; or
 - (iii) do not substantially affect the value of the goods;
- (b) the sale or price is not subject to some condition or consideration for which a value cannot be determined and with respect to the goods being valued;

- (c) no part of the proceeds of any subsequent re-sale, disposal or use of the goods by the buyer will accrue directly or indirectly to the seller, unless an appropriate adjustment can be made in accordance with paragraph 8; and
 - (d) the buyer and seller are not related, or where the buyer and seller are related, that the transaction value is acceptable for customs purposes under sub-paragraph (2).
- (2)
 - (a) In determining whether the transaction value is acceptable for the purposes of sub-paragraph (1), the fact that the buyer and the seller are related within the meaning of paragraph 1 shall not in itself be grounds for regarding the transaction value as unacceptable. Where necessary, the circumstances surrounding the sale shall be examined and the transaction value shall be accepted provided that the relationship did not influence the price. If, in the light of information provided by the importer or otherwise the Comptroller has grounds for considering that the relationship influenced the price, he shall communicate the grounds to the importer who shall be given a reasonable opportunity to respond.
 - (b) In a sale between related persons, the transaction value shall be accepted and the goods valued in accordance with sub-paragraph (1) whenever the importer demonstrates that such value closely approximates to one of the following occurring at or about the same time
 - (i) the transaction value in sales, between buyers and sellers who are not related in any particular case, of identical or similar goods for export to Barbados;
 - (ii) the customs value of identical or similar goods as determined under paragraph 6;
 - (iii) the customs value of identical or similar goods as determined under paragraph 7.

In applying the foregoing tests, due account shall be taken of demonstrated differences in commercial levels, quantity levels, the elements enumerated in paragraph 8 and costs incurred by the seller in sales in which he and the buyer are not related that are not incurred by the seller in sales in which he and the buyer are related.

- (c) The tests set out in sub-paragraph 2(b) shall be used at the initiative of the importer and only for comparison purposes. Substitute values may not be established under that sub-paragraph.
- (4) The price actually paid or payable is the total payment made or to be made by the buyer to or for the benefit of the seller for the imported goods.
- (5) Payments may be made directly or indirectly, need not necessarily take the form of a transfer of money, and shall include
 - (a) all payments made or to be made as a condition of sale of the imported goods by the buyer to the seller or by the buyer to a third party to satisfy an obligation of the seller; and
 - (b) any settlement by the buyer, whether in whole or in part, of a debt owed by the seller.
- (6) Activities, including marketing activities, undertaken by the buyer on his own account, other than those for which an adjustment is provided in paragraph 8, are not considered to be an indirect payment to the seller, even though they might be regarded as of benefit to the seller or have been undertaken by agreement with the seller, and their cost shall not be added to the price actually paid or payable in determining the customs value of imported goods.
- (7) The customs value of imported goods shall not include the following charges or costs, provided that they are distinguished from the price actually paid or payable for the imported goods
 - (a) charges for construction, erection, assembly, maintenance or technical assistance, undertaken after importation on imported goods such as industrial plant, machinery or equipment;

- (b) customs duties and other taxes payable in Barbados by reason of the importation or sale of the goods;
- (c) the cost of transport after importation.

(8) The fact that goods which are the subject of a sale are entered for home use within Barbados shall be regarded as adequate indication that they were sold for export to Barbados, and this indication shall also apply where successive sales of the goods have taken place before valuation; and where such successive sales have taken place each price resulting from them may be used as a basis for valuation.

Transaction value of identical goods

4.(1) The customs value of imported goods determined under this paragraph is the transaction value of identical goods sold for export to Barbados and exported at or about the same time as the goods being valued if the identical goods at the time of sale are at the same commercial level and of substantially the same quantity as the goods being valued.

(2) Where there is no sale of identical goods at the same commercial level and in substantially the same quantity as the goods being valued, the transaction value of identical goods sold at different commercial levels or in different quantities may be used taking account of, and making a suitable adjustment for, the differences in the commercial levels and the quantities of the identical goods.

(3) Where the costs and charges referred to in paragraph 8(1)(e), (f) and (g) are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the identical goods in question arising from differences in distances and modes of transport.

(4) In applying this paragraph

- (a) if more than one transaction value of identical goods is found, the lowest such value shall be used to determine the customs value of the imported goods;

- (b) a transaction value for goods produced by a different person shall be taken into account only when no transaction value can be found under sub-paragraphs (1) and (2) for identical goods produced by the same person as the goods being valued; and
 - (c) a condition for adjustment because of different commercial levels or different quantities shall be that such adjustment shall be made only on the basis of demonstrated evidence that clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in value.
- (5) For the purposes of this paragraph, the “transaction value of identical imported goods” means a customs value previously determined under paragraph 3, adjusted as provided for in sub-paragraphs (2) and (3) of this paragraph.

Transaction value of similar goods

- 5.(1)** The customs value of imported goods determined under this paragraph is the transaction value of similar goods sold for export to Barbados and exported at or about the same time as the goods being valued if the similar goods at the time of sale are at the same commercial level and of substantially the same quantity as the goods being valued.
- (2) Where there is no sale of similar goods at the same commercial level and in substantially the same quantity as the goods being valued, the transaction value of similar goods sold at different commercial levels or in different quantities may be used taking account of, and making a suitable adjustment for, the differences in the commercial levels and the quantities of the similar goods.
- (3) Where the costs and charges referred to in paragraph 8(1)(e), (f) and (g) are included in the transaction value, an adjustment shall be made to take account of significant differences in such costs and charges between the imported goods and the similar goods in question arising from differences in distances and modes of transport.

- (4) In applying this paragraph
- (a) if more than one transaction value of similar goods is found, the lowest such value shall be used to determine the customs value of the imported goods;
 - (b) a transaction value for goods produced by a different person shall be taken into account only when no transaction value can be found under sub-paragraphs (1) and (2) for similar goods produced by the same person as the goods being valued; and
 - (c) a condition for adjustment because of different commercial levels or different quantities shall be that such adjustment shall be made only on the basis of demonstrated evidence that clearly establishes the reasonableness and accuracy of the adjustment, whether the adjustment leads to an increase or a decrease in value.
- (5) For the purposes of this paragraph, the “transaction value of similar imported goods” means a customs value previously determined under paragraph 3, adjusted as provided for in sub-paragraphs (2) and (3) of this paragraph.

Deductive value

6.(1) Where the imported goods or identical goods or similar imported goods are sold in Barbados in the condition as imported, the customs value of imported goods, determined under this paragraph, shall be based on the unit price at which the imported goods or identical goods or similar imported goods are sold in the greatest aggregate quantity, at or about the time of the importation of the goods being valued, to persons who are not related to the persons from whom they buy such goods, subject to deductions for the following

- (a) either the commission usually paid or agreed to be paid or the additions usually made for profit, and general expenses including the direct and indirect costs of marketing the goods in question in connection with sales in Barbados of imported goods of the same class or kind;

- (b) the usual costs of transport and insurance and associated costs incurred within Barbados; and
 - (c) the customs duties and other taxes payable in Barbados by reason of the importation or sale of the goods.
- (2) When the imported goods or identical goods or similar imported goods are not sold at or about the time of importation of the goods valued, the customs value of imported goods determined under this paragraph shall, subject otherwise to the provisions of sub-paragraph (1), be based on the unit price at which the imported goods or identical goods or similar imported goods are sold in Barbados in the condition as imported at the earliest date after the importation of goods being valued but before the expiration of 90 days after such importation.
- (3) If the imported goods or identical goods or similar imported goods are not sold in Barbados in the condition as imported, then where the Comptroller so decides, the customs value shall be based on the unit price at which the imported goods, after further processing, are sold in the greatest aggregate quantity to persons in Barbados who are not related to the persons from whom they buy such goods, due allowance being made for the value added by such processing and the deductions provided for in sub-paragraph (1).
- (4) Where the method of valuation referred to in sub-paragraph (3) is used, deductions made for the value added by further processing shall be based on objective and quantifiable data relating to the cost of such work; and accepted industrial formulas, recipes, methods of construction and other industrial practices shall form the basis of the calculations.
- (5) In this paragraph, the “unit price at which imported goods or identical goods or similar imported goods are sold in the greatest aggregate quantity” is the price at which the greatest number of units is sold in sales to persons who are not related to the persons from whom they buy such goods at the first commercial level after importation at which such sales take place.
- (6) Any sale in Barbados to a person who supplies directly or indirectly free of charge or at reduced cost for use in connection with the production and sale

for export of the imported goods any of the elements specified in paragraph 8(1) (b), shall not be taken into account in establishing the unit price for the purposes of this paragraph.

(7) For the purposes of sub-paragraph (1)(a)

- (a) “profit and general expenses” shall be taken as a whole, the figure for the purposes of this deduction being determined on the basis of information supplied by or on behalf of the importer unless his figures are inconsistent with those obtaining in sales of imported goods of the same class or kind, and where the importer’s figures are inconsistent with such figures, the amount for profit and general expenses may be based upon relevant information other than that supplied by or on behalf of the importer; and
- (b) in determining either the commissions or the additions usually made for profit and general expenses, the question whether certain goods are of the same class or kind as other goods shall be determined on a case-by-case basis by reference to the circumstances involved and in doing this, sales for which the necessary information can be provided of the narrowest group or range of imported goods of the same class or kind as the goods being valued should be examined;
- (c) “goods of the same class or kind” includes goods imported from the same country as the goods being valued as well as goods imported from other countries.

(8) For the purposes of sub-paragraph (2), the “earliest date” shall be the date by which sales of the imported goods or of identical imported goods or similar imported goods are made in sufficient quantity to establish the unit price.

Computed value

7.(1) The customs value of imported goods determined under this paragraph shall be based on a computed value which shall consist of the sum of

- (a) the cost or value of materials and fabrication or other processing employed in producing the imported goods, ascertained from information relating to the production of the goods being valued, supplied by or on behalf of the producer, including the relevant accounts of the producer where these are prepared in accordance with the general accepted accounting principles applied in the country where the goods are produced;
- (b) an amount for profit and general expenses equal to that usually reflected in sales of goods of the same class or kind as the goods being valued which are made by producers in the country of exportation for export to Barbados;
- (c) the cost or value of the items referred to in paragraph 8(1)(e), (f) and (g).

(2) The cost or value of materials and fabrication referred to in sub-paragraph (1)(a) shall include

- (a) the cost of elements specified in paragraph 8(1)(a)(ii) and (iii); and
- (b) the duly apportioned value of any element specified in paragraph 8(1)(b) which has been supplied directly or indirectly by the buyer for use in connection with the production of the imported goods and in the case of the elements referred to in sub-paragraph 8(1)(b)(iv) only where it has been charged to the producer.

(3) No cost or value of an element referred to in sub-paragraph (2) shall be counted more than once in computing the value.

- (4) For the purpose of sub-paragraph (1)(b)
- (a) the amount for profit and general expenses shall be taken as a whole and shall be determined on the basis of information supplied by or on behalf of the producer except that where his figures are inconsistent with those usually reflected in sales of goods of the same class or kind as the goods being valued and which are made by producers in the country of exportation for export to Barbados, the amount for profit and general expenses may be based upon relevant information other than that supplied by or on behalf of the producer of the goods;
 - (b) whether goods are of the same class or kind as other goods shall be determined on a case by case basis with reference to the circumstances involved. In doing this, sales for export to Barbados of the narrowest group or range of goods of the same class or kind as the goods being valued for which the necessary information can be provided should be examined;
 - (c) “general expenses” means the direct and indirect cost of producing and selling the goods for export which are not included under sub-paragraph (1)(a);
 - (d) “goods of the same class or kind” means goods imported from the same country as the goods being valued.

Customs value includes certain charges

8.(1) In determining the customs value under paragraph 3, there shall be added to the price actually paid or payable for the imported goods

- (a) the following to the extent that they are incurred by the buyer but are not included in the price actually paid or payable for the goods, the sums paid as
 - (i) commission and brokerage, except buying commissions,
 - (ii) the cost of containers which for customs purposes are treated as a part or component of the goods in question; and

- (iii) the cost of packing, whether for labour or materials;
 - (b) the duly apportioned value of the following goods and services where supplied directly or indirectly by the buyer free of charge or at reduced cost, for use in connection with the production and sale for export of the imported goods, to the extent that such value has not been included in the price actually paid or payable,
 - (i) materials, components, parts and similar items incorporated in the imported goods,
 - (ii) tools, dies, moulds and similar items used in the production of the imported goods;
 - (iii) materials consumed in the production of the imported goods; and
 - (iv) engineering, development, art work, design work and plans and sketches undertaken elsewhere than in Barbados and necessary for the production of the imported goods;
 - (c) royalties, licence fees or other payment made in respect of patents, trade marks, or copyrights related to the goods being valued which the buyer must pay directly or indirectly as a condition of sale of those goods;
 - (d) the proceeds of any subsequent re-sale, disposal or use of the imported goods that accrue directly or indirectly to the seller;
 - (e) the cost of transport of the imported goods to the port or place of importation;
 - (f) loading and handling charges associated with the transport of the imported goods to the port or place of importation; and
 - (g) the cost of insurance.
- (2) No additions shall be made to the price actually paid or payable in determining the customs value except as provided in this paragraph.

- (3) Additions shall be made to the price paid or payable only in accordance with this paragraph and on the basis of objective and quantifiable data; and if such do not exist a transaction value shall not be determined under the provisions of paragraph 3.
- (4) In this paragraph, the term “buying commissions” means fees paid by an importer to his agent for the service of representing him abroad in the purchase of the goods being valued.
- (5) Notwithstanding sub-paragraph (1)(c)
- (a) charges for the right to reproduce the imported goods in Barbados shall not be added to the price actually paid or payable for the imported goods in determining the customs value; and
 - (b) payments made by the buyer for the right to distribute or re-sell the imported goods shall not be added to the price actually paid or payable for the imported goods if such payments are not a condition of the sale for export to Barbados of the goods.

Interest charges

- 9.(1)** Charges for interest under a financing arrangement entered into by the buyer and related to the purchase of imported goods shall not be included in the customs value determined under paragraph 3 if
- (a) the charges are distinguished from the price actually paid or payable for the goods;
 - (b) the financing arrangement has been made in writing;
 - (c) where required by the Comptroller, the buyer can demonstrate that
 - (i) such goods are actually sold at the price declared as the price actually paid or payable; and
 - (ii) the claimed rate of interest does not exceed the level for such transactions prevailing in the country where, and at the time when, the finance was provided.

(2) The provisions of sub-paragraph (1) shall apply where the finance is provided by the seller, a bank or other person; and it shall also apply where customs value is determined using a method other than the calculation of the transaction value.
